The Bed and Biscuit is going wild! Kids will laugh at — and learn from — this new adventure, as Grampa takes in some ailing critters who are anything but tame. (Ages 6-10) Ever since Grampa Bender opened his doors (and veterinary skills) to a despondent Canada goose, a cranky muskrat, and two tiny but rebellious fox kits, his animal boarding house has been turned upside down. Luckily, Ernest the mini-pig is on hand to marshal the other animals into being good hosts — but since wild things are, well, wild by nature, it has been trickier than he imagined. Plus Ernest is trying to train Sir Walter, the Scottish terrier puppy who is the newest addition to the family. But what if Sir Walter doesn't want to be told what to do and decides that running wild like a fox sounds like lots of fun?

My dog-obsessed mother loves these books! This was one of the few Scottish Terrier items she did not have, so it was only natural that I would buy this for her. I won't say too much about the book, because the real story behind my purchase relates to receiving the first-ever-damaged-in-transit item I have received from Amazon. I opened the box to find both this book and the other Bed and Biscuit book I had purchased smeared with ink. I am guessing that the packing slip may have still been wet when placed in the box, or may have gotten wet when being shipped. I contacted customer service right away, and Amazon staff promptly sent new copies of the books along with a prepaid return mailer to send back the damaged copies. I received the new copied in time for Mother's Day, and was extremely pleased with how smoothly the return was handled.

Our 8yr old daughter loves these books and has really enjoyed reading them easily. Lovely stories and helped her with her fluency and word recognition skills. Great for building the confidence she was needing with her reading speed, fluency and comprehension.

It's a sweet little story, but the numerous characters are confusing to who is who. I would describe this book as a fictitious day in the life of a country vet and think adults might enjoy it more than kids. The length and illustrations are perfect for middle elementary students. I think this might be a fun read aloud rather than for a child age 8-10 to read it silently. I also think it would be a fantastic cartoon series or TV series.

We all know how important it is to read out loud to our children. The best thing about this author's books is that Joan Carris has managed to write stories that are as humorous for adults as they are for children. Her book makes reading out loud to our children a joy instead of a chore. We get just as caught up in the story as our children, we laugh out loud along with our children, and we have a true adventure as we read together. This book keeps a young reader's attention all the way through, from the first chapter to the last. The characters are warm and endearing, and we become their cheer leaders! I recommend Wild Times at the Bed and Biscuit both as a read out-loud, or for any child who has discovered the joy of reading.
