Maggie McCaffrey abandons her high-pressure career and returns to Springwater to pursue her dream of transforming the old Springwater Station into a modern inn, only to be reunited with her old love, J.T. Wainwright, an ex-cop grieving over the death of his partner.

Reviews of the Springwater Wedding by Linda Lael Miller

Gri

I loved this book. It was a fast read as well as a great escape. Miller has given us the flavor of modern Springwater plus allowing the characters the chance to reverently appreciate the legacy of the early citizens who built the town.

It is truly Maggie's and JT's story and if the problems of the people around them are not totally well developed, I feel that in no way does this take away from the romance of our two lovers.

You feel the pain they suffered from losing each other so many years ago, feel the sadness as their first marriages ended and without doubt experience the unremitting joy as they rediscover their relationship. The arrival of JT's little boy only cements Maggie's and JT's feelings for one another. It also allows us to see briefly into the window of his past when his first wife brings Quinn to Montana.

This will be a book to take to the beach, the pool or anywhere else you want to go and just be pleasantly entertained. A keeper.

Scoreboard Bleeding

I liked the suspense. Did not like the way she did not remember the genealogy from the previous Springwater books.

Vozuru

Linda Lark Miller always knows how to close a series! She brought all the characters together, the past and the future together so seamlessly! As always, thanks for a great read!

Gavigamand

I got this book and was surprised that it came as a headback book. I am not used to reading hardcover books, but I liked this book so much and it turned out just fine. I love this author and read every thing I find of hers, but it is hard since I have read so much of her work. Loved it

Qudanilyr

Actually has some unexpected twists. Nice story to get lost in.

Kerahuginn

Love Linda Lael Miller

Leniga

This was such a profound experience. I really like all Linda Lael Miller's books.

Her style of writing is extraordinary prose.

I get caught up after the first couple of sentences.

This series of hers is just wonderful to read.

Love LLM and her characters, always feels like family when I start one of her books....have three in the current stack of books to read!
