It might have been Jamie's stepfather's dearest wish to see her married to his son Jake - but Jake showed no sign of obliging him, so, broken-hearted, Jamie has gone away. Now, six years later, her feelings are unchanged, and Jake is on the scene again. This time Jake's readier to consider marriage - but still not to Jamie...

Reviews of the *Reason for Marriage* *by* Penny Jordan

Ral

Difficult, self-centered, manipulative heroine spoils this book. Although she grows up with the hero as her stepbrother and claims to love him, she readily believes him capable of lying, cheating, and avarice based upon just one incident of witnessing him kissing another woman. She is dishonest and tells the hero she needs her freedom to have a career. When she observed that she has hurt the hero's feelings, she brushed it off and told herself he somehow was acting or pretending, because he was a selfish womanizer. She even criticized the note he left the morning after their wedding night as too casual and unromantic. Geez-- she blew him off and acted like she was doing him a favor or he was almost a rapist for wanting to make love with his wife. This is the type of romance heroine I just can't stand. Although she is beautiful (which is constantly repeated every few paragraphs), I can't see any other reason why the hero should be in love with her.

SupperDom

Love it. Very good buy for the price. Hope to get more. Can't go wrong if you purchase gave 5stars

BroWelm

I must say I'm always sad when i read these 'second chance' romances. I hate the way they've lost years together through a big misunderstanding. Just one conversation and things could've been sorted out. In this case however I think the h was very young and so a good few years to grow up was probably a good thing.

I docked a star because I think that the H should've gone after her years earlier but anyway it was still a great read

Akisame

This is a story of misunderstandings & a devious secretary that drives two lovers apart for several years. The really unusual part is the heroine playing best friend to the woman everyone believes the hero is rumoured to be engaged to. Fortunately, everything is cleared up in time for a happy ever after.

Goll

Jamie was all set to marry Jake until she walks in on him holding another woman. She runs away without listening to him. Now six years later she is back. Will she be able to full fill her dying step-fathers wishes? This is the second chance with Jake, will she be able to love him still trust him? I enjoyed this story and will reread it again.

Steelraven

I always enjoy the way Penny Jordan writes I often look for her books when I get the chance. She never seems to let her readers down

Charyoll

Pudding 1950

This was a Bering boring book. Very cliché. I could have written it myself from having read so many like it before. Unfortunately, I keep hoping someone will come up with a new twist or change in an old plot, but I keep being disappointed. It appears that writer's imaginations have become extremely stagnate. I wish I could get my money back!!!

I purchased this online via my Kindle. It was worth the price and enjoyed reading. Purchasing books on our Kindle is the only way to go.
